

A Guide to Childcare Options in Sheffield

There are many different types of childcare, subject to different sets of regulations and registration, and this can be confusing for new parents and carers (or for those new to Sheffield). This factsheet aims to help parents find the childcare that is most suited to their needs and the needs of their children.

What does registration mean?

Under the Childcare Act 2006 most childcare services seeking to care for children under 8 years old, for more than 2 hours a day, away from the child's own home, must be registered. Registration is carried out by the Office for Standards in Education, Children's Services and Skills (Ofsted), who then inspect the provision regularly to ensure that quality standards for childcare are met. Provision not required to register includes some crèches such as shoppers' crèches, certain activity based clubs and provision operating for 14 days or less in a year. Carers employed in the child's home as nannies are not required to register unless they work for 3 or more families at one time. However, childcarers and groups who are exempt from registration can now opt to go on the voluntary part of the Ofsted Childcare Register where they will also be checked and regulated. (Please see the factsheet 'A Guide to Registration and Ofsted'.)

How do I find out about childcare in Sheffield?

First Point can provide parents/carers with details of all registered childcare and with factsheets about the different types of provision.

The factsheet, 'A guide to nannies' gives suggestions of ways to employ a nanny and has contact details for local nanny agencies.

How does a parent find out about non-registered children's activities in Sheffield?

Contact First Point for details of non-registered children's groups such as toddler groups and a broad range of leisure based activity groups and clubs. This information is updated on a regular basis but, because it is not registered, we rely on the providers and users of these services to let us know about new activities or changes to existing ones. Sheffield Information Link (SIL) produces a 'What's On' listing of activities for children and young people for every school holiday. Most of this information can also be found on the online directory: www.asksid.net

Parents and carers need to be aware that we cannot vet non-registered activities or clubs and inclusion on the lists or website does not amount to a recommendation.

It is also possible to find out about non registered activities and clubs through word of mouth, local parents' newsletters, local newspapers, noticeboards at schools, churches and community centres and adverts in shop windows.

First Point is in the city centre at Howden House, Union Street - close to the Peace Gardens.

Do I have to use registered childcare in order to be eligible for help with costs?

Yes. If you are in receipt of Working Tax Credit you may qualify for extra help towards your childcare costs. You will only be eligible for this extra help if you are using registered childcare. This includes providers registered on the voluntary part of the Ofsted Childcare Register. You may also be eligible to use tax credits if a provision is run directly by a school. Please ask for a copy of the factsheet 'A Guide to Child Tax Credit and Working Tax Credit' for more information. Using a registered provider will also enable parents to use employer supported childcare vouchers. Under this scheme the cost of childcare vouchers can be deducted from your gross pay by your employer, meaning you have less tax and National Insurance to pay. (See the factsheet 'A Guide to Employer Supported Childcare')

Does your child have special needs or a disability?

All registered childcare is required to ensure that it is accessible and inclusive. This means childcare should not be refused, or a child treated less favourably, because of any disability or learning difficulty. All reasonable steps must be taken to ensure that the needs of each child are met, and that children with disabilities have access to the premises. A number of specialist services can provide support and advice to parents and childcarers about children's play, learning and development. These include the Early Years Inclusion Service for 0 – 5 year olds, and the Special Needs Inclusion Playcare Service (SNIPS) for children wanting to access mainstream out of school and holiday clubs. See Useful Contacts below and for details of SIGN, our specialist service for families with children who are disabled or have special needs.

The Childcare Act requires local authorities to assess the local childcare market and to secure sufficient childcare for working parents. Childcare will only be deemed sufficient if it meets the needs of the community in general and in particular those families on lower incomes and those with disabled children. Local authorities take the lead in planning, supporting and commissioning childcare. Local authorities are not required to provide childcare direct but to work with local private, voluntary and independent sector providers to meet local need. Local authorities have a duty to secure a free minimum amount of early learning and care for all 3 and 4 year olds whose parents want it.
